2013 Mobile Photography Awards Exhibit

the mpa at

The Mobile Photo Awards were founded to recognize and celebrate the genre's best mobile photo & art talent. With world-class exhibits and a top prize of \$3000, the MPA is the largest event of its kind.

Our exhibit showcases the winning images, chosen from thousands of entries by a jury of twenty photographic professionals, journalists, teachers, artists and leaders in the mobile photo and art world.

The MPA has a broad range of industry partners from photo app developers, fine art printers, lens accessory makers, software and media to traditional art galleries such as ArtHaus in San Francisco.

“With the MPA...Phone Photos reach fine art proportions”

San Francisco Examiner

“The explosion of mobile photography has inspired Ontario, Canada-based digital artist Daniel Berman to bring the medium out of the digital galleries and into the brick-and-mortar ones with the Mobile Photo Awards...it's no surprise that they're now making waves in the art world.”

The Huffington Post
